IN

CENTENARY COLLEGE OF LOUISIANA.

TERMS OF ADMISSION.

Candidates for admission into the Freshman Class are examined in the following or equivalent studies: English Grammar, Geography, Arithmetic, Algebra through 4 chapters (Davies' Bourdon), Andrews and Stoddard's Latin Grammar, Andrew's Latin Exercises, Cæsar (4 books), Virgil (6 books), Cicero's Orations, Sophocles' Greek Grammar and Lessons, Felton's Greek Reader, Latin Prosody, and Mythology.

Candidates for a higher standing are examined in the same studies, and also in that part of the College Course gone over by the Class to which they may desire admission.

The stated times for examining candidates are the Monday preceding Commencement, and the last day of the vacation immediately following.

All students must bring satisfactory testimonials of good moral character, and those from other Colleges certificates of dismission in good standing.

Thorough acquaintance with the studies required for admission is indispensably necessary, in order to receive the full benefits of the subsequent College Course. It is found, by experience, that students imperfectly prepared for the Class they enter are embarrassed in their further progress, and seldom repair the want of proper preparatory study.

Anthon's Classical Dictionary, Smith's Grecian and Roman Antiquities, and Butler's Ancient Atlas, are used for reference by the Classical Student throughout the Course.

In addition to the above studies, instruction in the Italian Language will be given by the Professor of Modern Languages, to such as may desire it, at the expense of the student.

The members of the Senior Class deliver original orations before the Faculty and students throughout the year.

Greek and Latin composition will be attended to during the first three years of the Course.

Regular Lectures will be delivered by the President and Professors, upon subjects connected with their several departments. It is believed that the alternation of familiar Lecture with the ordinary Recitation is highly calculated to elicit the attention and insure the success of the student.

Chemistry is taught by Recitation and Lecture accompanied with experiment.

Practical Instruction.

Knowledge without application is unproductive. The great object of the instructor should be to make the scholar practical as well as theoretical. Much is left for the teacher to supply which is not found in the text books. There is much valuable information which can only be obtained by oral instruction, and a familiar knowledge of the detail of experiment and practice. With this view, the Theodolite, compass, sextant, etc., will be employed by the Professor in actual observations and surveys, thus properly enforcing and illustrating mathematical and philosophical principles by practical application.

Weekly exercises in composition and declamation are required of all the classes.

The course of study in the various departments is thought to be full and thorough. The object of Collegiate instruction is not to *complete* either a practical or professional education, but to lay the foundation of a character fitted to appear with usefulness and honor in any sphere of life—to bring out and properly balance the powers of the mind, thus fitting the individual for the successful prosecution of the learned professions or higher departments of business.

LIBRARY.

The College Library contains about 3000 well selected volumes, among which are many rare and valuable works, both in ancient and modern literature. The importance of such a library to the reading student during his College Course is too obvious to need remark. The Library is accessible to all students.

APPARATUS AND CABINET.

The College possesses a valuable set of Philosophical, Astronomical and Chemical Apparatus, and also a well selected Mineralogical and Geological Cabinet.

Literary Societies.

There are two Literary Societies connected with the Institution. These are of great utility to young men acquiring a liberal education—improving them in the art of public speaking, making them in some degree familiar with the proceedings of deliberative bodies, and cultivating systematic business habits. Each Society has a convenient hall and well selected Library—vol. 700 each.

EXPENSES.

Tuition per session of ten months - - - -	$50 00
Room rent - - - - - - - -	5 00
Contingencies - - - - - - -	3 00
Use of Library - - - - - - -	2 00
Total of College fees - - - - -	$60 00

In addition to the above regular charges, a matriculation fee of $5 is paid by each student on first becoming a member of any regular College Class. College charges must be paid semi-annually in advance.

Board and washing can be had at the Steward's Hall, or in private families, for about $10 per month. Students furnish their own rooms, wood, lights, etc.

REPORTS.

Bi-monthly reports are transmitted to the parent or guardian of each student, showing his grade of scholarship and general deportment.

Extracts from the Statutes.

Chapter VI.—*Religious Exercises.*

1. The Exercises of every day shall be opened and closed with prayer, by the President or some other member of the Faculty, when all the students shall attend.

2. The students shall attend Divine Worship in the College Chapel, or elsewhere, every Sabbath.

3. The due observance of the Sabbath is earnestly recommended, and all practices inconsistent with the reverence due to the day are expressly prohibited.

Chapter XI.—*Of College Fees.*

Art 2. All College dues shall be paid, and a certificate shall be presented to the President, before a student can receive any degree; and no student shall receive dismission until all his dues are paid.

Chapter XII.—*Of Commencements, Sessions, Examinations and Vacations.*

1. There shall be an Annual Examination * commencing on the second Monday preceding the last Wednesday in July, which shall be Commencement Day.

2. The regular academic year shall begin on the first Monday in October of every year.

3. There shall be a vacation from the 24th of December to the 1st of January, and from Commencement Day to the first Monday of October in each year.

---

* N. B. The Freshman, Sophomore and Senior Classes are examined at the close of the second term for each year, on all the studies of that year, and the Junior Class in all the studies of the previous course.

Chapter XIII.—*Of Expenditures.*

Every student whose parent or guardian does not reside in the town of Jackson, or its immediate vicinity, shall have an academical guardian, nominated by himself, with the consent of his parent or legal guardian, whose duty it shall be to take charge of the necessary expenditure of such student, and with whom shall be deposited such a sum of money as his parent or guardian may think proper. In the article of pocket money the strictest economy is most earnestly recommended and requested.

Remarks.

It is highly important that students return to College in time to attend the first Recitations or Lectures of their Classes, since an absence of a few days, at a time when a new branch of study is commenced, seldom fails to embarrass the whole Course; and in some cases it is impossible to make up the loss.

Preparatory Department.

The studies of this Department will be pursued in the following manner, being divided into five classes:

English Class.

English Grammar - - - - - -	*Bullions.*
Arithmetic - - - - - - -	*Emerson.*
Geography - - - - - - -	*Mitchell.*
Elocution - - - - - - -	*Caldwill.*
Algebra through 4 chapters - - -	*Davies' Bourdon.*

First Latin Class.

Andrews and Stoddard's Latin Grammar.
Andrews' Latin Exercises and Reader.
Cæsar (4 books) - - - - - - *Anthon.*

Second Latin Class.

Virgil (6 books) - - - - - -	*Cooper.*
Cicero's Select Orations - - - - -	*Anthon.*

Latin Prosody and Mythology.

First Greek Class.

Sophocles' Greek Grammar.
Sophocles' Greek Lessons.
Felton's Greek Reader begun.

Second Greek Class.

Felton's Greek Reader completed.
Greek Testament.
Declamation and composition throughout the course.

In this Department regular hours of *study* and *recitation* are observed, under the *immediate* supervision of the Principal. In other respects the members of this Department are subject to the same general regimen and requisitions as the College students. The charge for tuition is forty dollars per session of ten months. Other charges the same as in the College. The other expenses will vary with the circumstances and habits of the student.

Text books and Stationery can be obtained in Jackson.

ALUMNI.

By act of the Joint Board of Trustees and Visitors of "Centenary College of Louisiana," at their first meeting, the Alumni of "Centenary College," and those of the "College of Louisiana," were adopted as the Alumni of this Institution, and entitled to all the privileges, immunities, honors, etc., usually enjoyed by Alumni in their Alma Mater.

Note to the Public.

The number of students in the *College Classes* is comparatively small. This is attributable to the infancy of the institution, and the necessary embarrassments incident to a new organization. From the size of the present Freshman Class, and the prosperity of the Preparatory Department, under wholesome discipline and efficient instruction, we believe the deficiency will soon be repaired.
